STEM EDUCATION & SPACE INSPIRATION

Michael Cebral

Noordwijk, Netherlands · +34 646 527 342 · michaelcebralclase@gmail.com · linkedin.com/in/michaelceb · mcebral.com

ABOUT ME

Science communicator with a research background in biotechnology and space life sciences, voluntary outreach since 2019 and a current internship at ESA ESTEC. I create talks, visual materials and interactive games that help people explore difficult science. I bring experience coordinating speakers and international project teams and will host and moderate ESTEC Open Days 2026. Spanish citizen, English C2 and ready to relocate.

SELECTED EXPERIENCE

Science Communication & Research Evaluation Intern

Jul 2026 to Present

European Space Agency (ESA), Exploration Science Office, ESTEC · Noordwijk, Netherlands

- Assessed 50+ research funders across 121 calls and guidance entries, tracing findings to 220 sources to inform ESA communication and research-evaluation recommendations.
- Produced scientific briefings, visuals and recommendations that translate complex exploration-science evidence for technical and institutional audiences.
- Coordinated international expert input on exploration science, astronaut research and the ISS.

Science Communication & Outreach

2019 to Present

Talks and conference presentations · Voluntary school and public outreach

- Delivered more than 30 talks and conference presentations, including voluntary school and public outreach; developed audience-specific narratives, visuals and live explanations.

Design Coordinator (volunteer)

Nov 2023 to Jun 2024

TEDxKI, Karolinska Institutet · Stockholm, Sweden

- Led visual identity and communication materials for TEDxKI, an event with more than 2,500 attendees, spanning speaker presentations, signage and social content.
- Coordinated speakers, organisers and production partners to deliver consistent materials to deadline.

Research Engineer / MSc Researcher

Nov 2024 to Aug 2025

Giacomello Lab, SciLifeLab · KTH Royal Institute of Technology · Stockholm, Sweden

- Generated and analysed spatial transcriptomics data from NASA RR-9 mice; integrated public muscle and bone marrow datasets to investigate biological responses to spaceflight.
- Built reusable R and Python analysis pipelines and presented findings through reports and figures. MSc research to Jun 2025; employed as Research Engineer Jun–Aug 2025.

SELECTED STEM LEARNING PRODUCTS

EOGUESSR

2025 to Present

Creator · eoguessr.app

- Conceived and built a free Earth observation game using real Copernicus and NASA imagery, turning vegetation, water, terrain, heat and night lights into scientific challenges.
- Developed six game modes, live play and an Academy in three languages: English, Spanish and Galician. Owned the scientific content, learning design, interface and code.

CLASH OF QUARKS

2026 to Present

Creator · Online particle physics game

- Designing and developing an interactive particle-physics game in which players collide beams, interpret detector traces and assemble matter.
- Created a progression through particle and nuclear physics, combining visual experimentation with traceable sources and explanations of the scientific model’s limitations.

ROADMAP 2025 to 2026

Team Lead, Web Platform · International Space University

- Co-authored a communication strategy for future Moon and Mars missions, with messaging for technical, institutional and public audiences; accepted for an interactive presentation at IAC 2026.
- Led development of the project's web platform and edited expert interviews into short clips, translating country-level capability research into practical communication roadmaps.

Also GARN: managed an ESA Academy parabolic-flight proposal reaching interviews twice. ZePrion: produced recombinant proteins for an ISS experiment at CiMUS. ALL IN SPACE: founded a space-sector intelligence platform.

EDUCATION AND TRAINING

Master's degree in Space Studies *(Space Policy & Entrepreneurship)* 2025 to Jun 2026

International Space University · Strasbourg, France

Full scholarship, Barrié Foundation

Master's degree in Biomedicine *(VG, highest grade)* 2023 to Jun 2025

Karolinska Institutet · Stockholm, Sweden · VG in all graded courses and thesis

Full scholarship, la Caixa Foundation

Bachelor's degree in Biotechnology *(9.2 / 10, top of class)* 2019 to 2023

Universidade de Santiago de Compostela · Santiago de Compostela, Spain

Gravity Related Research Summer School *(50 hours, grade A)* 2024

ESA and ELGRA · ESEC Galaxia, Transinne, Belgium

Also Visualize Your Science (KI) · ISU executive courses in space applications · Single Cell and Spatial Transcriptomics Data Analysis (KTH).

SKILLS

Education & delivery	learning activity design, school and public outreach, workshops and events, facilitation, audience adaptation and interactive resources
Stakeholders & coordination	researchers, speakers, organisers and external production contributors; international project coordination, presentation support and preparation of materials
Space & science	human spaceflight, ISS research, exploration, Earth observation, life sciences, evidence review and scientific storytelling

DIGITAL SKILLS

Design & media	Figma, Canva, Photoshop, Illustrator, Premiere Pro, After Effects, CapCut, visual identity, presentation and video design
Digital & office	Word, Excel, PowerPoint, Teams, SharePoint, React, Next.js, HTML, CSS, JavaScript, Python, R, MATLAB

LANGUAGE SKILLS

Mother tongues: Spanish, Galician

Language	Listening	Reading	Spoken interaction	Spoken production	Writing
English	C2	C2	C2	C2	C2
Portuguese	C1	C1	C1	C1	C1
French	A2	A2	A2	A2	A2

Levels: A1/A2 basic user, B1/B2 independent user, C1/C2 proficient user. Common European Framework of Reference for Languages.

HONOURS AND AWARDS

- Full master's scholarships from the Barrié Foundation (2025) and la Caixa Foundation (2023).
- Extraordinary Degree Award, USC (2023): top of the graduating class.
- Academic Excellence Awards, Xunta de Galicia (2021 to 2023).

INTERESTS

Creative by nature, and happiest in a kitchen or a workshop, with prizes from regional cooking contests to show for it. Licensed FPV drone pilot, and Galician shot put and discus champion (2020 to 2022).
