EU citizen · available from October 2026 · open to remote work or relocation

ABOUT ME

Science communicator with a research background, focused on Earth observation, space, and public engagement. Explains technical and sensitive subjects, from environmental and emergency monitoring to security and defence, in clear language for expert, institutional, and public audiences. Handles the full process, from tracking the news each morning to planning the message, writing the copy, and building the visuals in Canva, Photoshop, and Illustrator. Comfortable working in four languages and used to tight deadlines.

WORK EXPERIENCE

Science Communication & Research Evaluation Intern (*incoming*)

Jul to Sep 2026

European Space Agency (ESA), Exploration Science Office, ESTEC · Noordwijk, Netherlands

- Joining ESA's human spaceflight programme to help communicate exploration science and support research evaluation, for readers who range from review panels to the wider public.

Research Engineer & MSc Researcher

Nov 2024 to Aug 2025

Giacomello Lab, SciLifeLab · KTH Royal Institute of Technology · Stockholm, Sweden

- Made dense spaceflight biology data (the NASA Rodent Research 9 bone and muscle samples) readable for specialists and non specialists alike, through clear summaries and figures.
- Wrote reproducible data pipelines in R and Python that the lab kept on as its standard.
- Produced the figures and summaries the team relied on internally and in its outreach.

Design & Communications Coordinator

Nov 2023 to Jun 2024

TEDxKI, Karolinska Institutet · Stockholm, Sweden

- Ran the visual identity and every piece of communication for a TEDx event of 2,500 people: slides, signage, social posts and speaker decks, all held to one coherent style.
- Built the slide templates and visual guidelines that every speaker worked from.

Speaker & Outreach Content Creator

2019 to Present

Independent Science Communication · Spain, Sweden & Belgium

- Gave around 30 public talks in three countries over six years, roughly five a year, from primary school classrooms to international conferences, designing the slides, graphics and posts for each one.
- Reshaped the same science, across space, biology and research careers, to fit whoever was in the room.

PROJECTS

ALL-IN SPACE

2025 to Present

Founder · allinspace.xyz

- Built a global space market intelligence platform from scratch: profiles for 200+ countries and a live map of 1,088 companies across five sectors, Earth observation among them, with 3D orbital tracking.
- Write and curate the daily news and launch feed in plain language, reading each morning's developments and getting them out fast. Around 30 regular readers a month so far.
- Added a layer that reads the data as risk and capability views, with confirmed facts kept clearly apart from estimates.

ABIL

2025 to Present

Founder · clearesg.vercel.app

- Designed a tool that condenses satellite readings into a single environmental score per site, for use in risk, insurance, investment and ESG.
- Tied every score back to the measurement behind it and the regulation it answers to, so people without a remote sensing background can still use the data.

ROADMAP

2025 to 2026

Team Lead, Web Platform · International Space University

- Wrote a communication plan for future Moon and Mars missions, with separate messaging for technical, institutional and public audiences. Accepted for presentation at IAC 2026.
- Built the web tool behind it, which turns country level space capability data into long range communication plans, and recorded the expert interviews.

Also GARN, an ESA Academy parabolic flight experiment (Project Manager). Ariadne, an independent advisory on access to space (Founder). Nexum Xestión, accounting software for small firms, backed by a startup incubator (Cofounder).

EDUCATION AND TRAINING

Master's degree in Space Studies *(Space Policy & Entrepreneurship)*

2025 to 2027

International Space University · Strasbourg, France

Full scholarship, Barrié Foundation

Master's degree in Biomedicine *(grade VG, highest distinction)*

2023 to 2025

Karolinska Institutet · Stockholm, Sweden

Full scholarship, la Caixa Foundation

Bachelor's degree in Biotechnology *(9.2 / 10)*

2019 to 2023

Universidad de Santiago de Compostela · Santiago de Compostela, Spain

Gravity Related Research Summer School *(grade A)*

2024

ESA / ELGRA · Transinne, Belgium

Also ISU executive certificates in space applications · Single Cell & Spatial Transcriptomics Data Analysis (KTH) · Visualize Your Science (KI).

SKILLS

Communication & outreach	science communication, copywriting and editing, public speaking, daily news monitoring and curation, messaging for technical, institutional and public audiences
Design & visuals	visual identity, infographics and data visualisation, presentation and slide design, video editing, social media content
Earth observation & data	Copernicus and Sentinel data, NDVI and vegetation indices, geospatial visualisation, drone and aerial imagery, data analysis in Python and R

DIGITAL SKILLS

Design & media	Canva, Photoshop, Illustrator, Premiere Pro, After Effects, Figma, Procreate, CapCut
Data & office	Python, R, MATLAB, Word, Excel, PowerPoint

LANGUAGE SKILLS

Mother tongues: Spanish, Galician

Language	Listening	Reading	Spoken interaction	Spoken production	Writing
English	C2	C2	C1	C1	C1
Portuguese	C1	C1	C1	C1	C1
French	A2	A2	A2	A2	A2

Levels: A1/A2 basic user, B1/B2 independent user, C1/C2 proficient user. Common European Framework of Reference for Languages.

HONOURS AND AWARDS

- Full master's scholarships from the Barrié Foundation (2025) and la Caixa Foundation (2023).
- Premio Extraordinario Fin de Carrera, USC (2023): top of the graduating class.
- Academic Excellence Awards, Xunta de Galicia (2021 to 2023).

INTERESTS

Creative by nature, and happiest in a kitchen or a workshop, with prizes from regional cooking contests to show for it. Licensed FPV drone pilot, and Galician shot put & discus champion (2020 to 2022).
